Details of Italian Internees who died in Australia 1941-1946

Italian internees from Great Britain were brought to Australia in 1940 onboard the *Dunera*. The *Dunera* transport to Australia was under horrific conditions and there is much written about this voyage. The *Dunera Boys* is a term given to Jewish Germans who were interned because of their country of origin. Some of the internees were as young as 16 years of age and were Jewish refugees from Nazi Germany.
